Description

Immersion holder for double measurements (pH-pH or pH-ORP)
for up to 3 electrodes (pH / ORP /Pt-100)

Easy to dismantle via screw cap

with KCl reservoir and wire guard to protect the electrodes

Holder head with integrated connection box (with

screw terminals and PG-13.5 cable grips)

integrated, in height adjustable mounting board

(140 x 200 mm) with star handle screws M-10

Electrode installation in base plate via PG-13.5 fittings

Details

Material in contact with test water:

PVC / ABS

Material of the holder head:

PVC / ABS

Operation temperature: max.

50 °C

Pipe length:

500 mm (other length

up

to 2.000 mm available)

Outer pipe diameter:

63 mm

Min. immersion: 70 mm

Order-numbers:

Immersion electrode holder GE-23/3, pipe length 500 mm

6510020

Additional charge per additional 500 mm

6510001
